

Get the Job!

ABOUT GET THE JOB

Getting the Job is probably the hardest part of any career. With 15 years' experience in

recruitment and doing over 300 Candidate interviews a year approximately 1 in 100 CVs presented has been well written *and* representative of the person in front of me. It's not easy to be objective and succinct about your own achievements. Many people leave out salient milestones, management experience and specific unique projects until they have a 1:1 interview with an objective professional.

WHAT A PROFESSIONALLY WRITTEN CV AND 1:1 INTERVIEW SKILLS CAN DO

- Re-assess the roles you can interview for successfully-broaden your horizons!
- Learn how to think like the employer-in any given scenario
- Learn how to side-step in your career for greater gain later (move like the Knight in Chess not the Pawn)
- Increased earnings/salary package even where this was not a priority
- Finding a new role quickly after redundancy or a career break
- Planned transition into self-employment
- Improve your career status within current organisation

THE 8-30 SECOND RULE

How long does an employer take to read your CV? It depends on the seniority of the job and the size of the employer but on average your CV has between 8-30 seconds to make an impact!

WITH EACH FOUR PILLARS 'CV AND INTERVIEW SKILLS CLIENT' WE AIM FOR:

Summary

A complete CV rewrite according to your new direction and investigation of the current market for your skills. We will work together to hone your interview skills 1:1 over SKYPE or face to face. Are you in a buyers' market right now (scarcity of Candidates like you) or a sellers' market? The answer determines your strategy for finding a role. We can work on your Research & Networking strategy and re-work your online Brand. You can sign up for as much as you need right now.

How does this process work?

- You will work on a one to one basis with Susan, a specialist career coach over one or a series of meetings to help you achieve your career goals
- There will be relevant exercises, questionnaires or practical tasks to complete which will be discussed in depth at these meetings
- Practical help will be provided with all aspects of marketing your skills to an employer, including finding suitable roles, CVs and interview preparation.
